

# Urgent Care with the Family

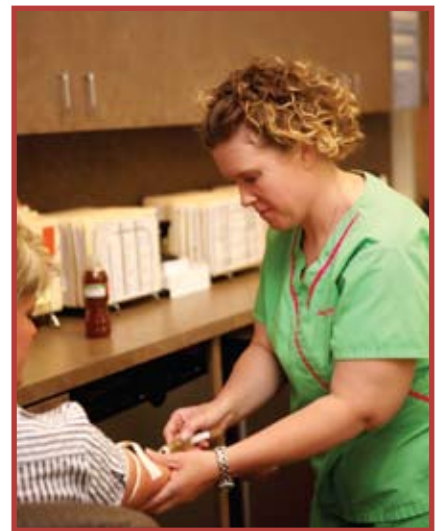

## Doctor Touch

by lisa pedersen • photography by major images

All too often life's little accidents seem to happen when doctors are unavailable. Or perhaps it's flu season and it's impossible to get an appointment, but you need to see a doctor and the ER is the last place you want to go! Fortunately, the professionals at Mansfield and Grand Prairie Urgent Care and Family Medicine understand. Offering a wide range of medical services, convenient locations, and family-friendly hours of operation, including extended weekend hours, Mansfield and Grand Prairie Urgent Care provide your family with comprehensive family medical care by a team of highly trained doctors and nurse practitioners. With no appointment ever necessary, they are there when you need them.

### THE MEDICAL TEAM

#### MANSFELD URGENT CARE

Dr. Jeffery Fisher, M.D. is the primary care physician at the Mansfield location. A Texas native and the son of a critical care nurse, Dr. Fisher discovered his passion for medicine early. Educated at Texas A&M and UT Houston, Dr. Fisher completed his medical training at John Peter Smith Hospital in Ft. Worth. Committed to providing excellent care to his patients, Dr. Fisher says, "I want to be the old-time doctor who builds relationships with his patients that last for years." Dr. Fisher and his wife are the proud parents of two young boys.

#### GRAND PRAIRIE URGENT CARE

At Grand Prairie Urgent Care, Dr. Ronda Beene, D.O. is the primary care physician. Building strong relationships with her patients is important to Dr. Beene, "I love Family Practice because it is new every day and it allows me to get to know my patients and their families." A lifelong Texan, Dr. Beene was educated at Texas Tech University and Texas College of Osteopathic Medicine in Ft. Worth. She completed her residency in Family Medicine at Ft. Worth Medical Center, where she also served as Chief Resident. Dr. Beene has practiced Family Medicine in the South Arlington area since 1996 and is thrilled to be part of the Urgent Care team.

**JOINING THE DOCTORS ARE TWO EXCEPTIONAL NURSE PRACTITIONERS, MICHELLE WILL AND BARBARA DAVIS.**

**URGENT CARE PLUS SO MUCH MORE...**

Both the Mansfield and Grand Prairie clinic locations are credentialed as primary care facilities, allowing patients to choose Dr. Fisher or Dr. Beene as their primary care physician. And for your convenience, most insurance plans are accepted. In addition to urgent care services, Dr. Fisher and Dr. Beene offer wide range of family and primary care services, such as annual and school physicals, medical check-ups, immunizations and flu shots, colon cancer screenings and well-woman/well-man exams.

Local companies are pleased to find that both Clinics are equipped to handle the medical needs of their employees. Mansfield and Grand Prairie Urgent Care serve community employers by offering pre-employment physicals and current and potential employee drug screens in a convenient and professional setting, as well as treating on the job injuries.

**EXCELLENT CARE — IN THE COMMUNITY, FOR THE COMMUNITY**

Be sure to visit Mansfield or Grand Prairie Urgent Care and Family Medicine the next time you need the care and attention of a compassionate physician. They're in your neighborhood and look forward to meeting you and your family. "We want to respond, on a daily basis, to our patients' desire for convenient and high-quality clinical care," said Gene Gleeson, Director of Business Services.
